The following is an examiner's statement of reasons for allowance: With re to Iler et al. (US 3,855,172) and Minoru (JP 57-123225), newly cited as well as Erneta, the closest prior art, none of these patents teach or suggest the newly added limitation of claim 1 (i.e. the limitation incorporated from now cancelled claim 4) or addition of a dyestuff in the process recited in claim 5. Furthermore JP '225 does not teach or suggest reacting melamine and aldehyde in the presence of colloidal silica as in claims 1 or 5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
